Job Description

The NYC Department of Sanitation is the world's largest sanitation department. DSNY collects more than 10,500 tons of residential and institutional garbage and 1,760 tons of the recyclables — each day. While efficiently managing solid waste and clearing litter or snow from 6,300 miles of streets, the Department is also a leader in environmentalism — committing to sending zero waste to landfills.

The primary responsibilities will include the following, but will not be limited to:

- Under supervision, maintains troubleshoots repairs, replaces and rewires automotive electrical and electronic systems; performs related work.

- Maintains repairs, replaces and tests alternators, cranking motors, distributors, magnetos, generator control units, alternating systems and rectifiers, and all other electrical and electronic equipment found on automotive vehicles.
- Rewires and repairs automotive electrical and electronic systems.
- Acts as a troubleshooter in determining electrical defects in the electrical and electronic systems in automotive equipment. Uses all electrical testing and shop devices.
- Reads wiring diagrams and service manuals.
- Designs schematics and wiring diagrams of automotive electrical and electronic systems.
- Transmits orders to other journeymen as directed.
- Supervises and trains assigned subordinates in the performance of various maintenance and/or repair tasks.
- Prepares reports and orders.
- maintains records and inventories of supplies and materials.
- Operates motor vehicles or equipment in the performance of assigned duties.

Minimum Qual Requirements

1. Five years of satisfactory full-time experience as an automotive electrician or aviation electrician; or
2. At least three years of experience as described in "1" above, plus sufficient training of a relevant nature, specializing in automotive electrical and electronic systems, acquired in an approved full-time trade or vocational high school. Six months of acceptable experience will be credited for each year of approved full-time trade or technical or vocational high school. Less than a full year of helper or apprentice experience, or relevant education, will receive prorated credit.

Driver License Requirement: By the time you are appointed to this position, you must have a motor vehicle driver license valid in the State of New York. If you have moving violations, license suspension(s) or an accident record, you may be disqualified. This license must be maintained for the duration of your employment."

Preferred Skills

- Expertise in electrical and electronic diagnostic systems to help service auto equipment and motor vehicles
- Experience working as an auto mechanic, auto electrician, automotive electrician or automotive technician
- Knowledgeable of auto repairs and auto maintenance services

Additional Information

- A New York Class B Commercial Driver License with no restrictions or a valid New York Driver license with a CDL B permit – actual license must be obtained within 6 months of appointment. Must be maintained for duration of employment.

At the time of appointment, certain agencies may require appointees to possess one or more of the following New York State Certifications:

- As a Motor Vehicle Inspector certified in Light Vehicles, Group 1;
- As a Motor Vehicle Inspector certified in Heavy Vehicles, Group 2;
- As a Motor Vehicle Inspector certified in Emissions, Group D.
